#### PREFACE

Volleyball is a great game – just ask the millions of people who play it, watch it, analyze it and referee it. It has been actively promoted in recent years and has developed tremendously as a top competitive sport. Increased excitement, speed, explosive action, a clean healthy image and huge TV audience figures have created an impetus to develop the game even further, to make it simpler and more attractive to an even wider range of viewing public.

This is the background to the continued development of the Rule Text.

However, to make a correct and uniform application of these rules on a world stage is also very important for the further development of the game.

The Casebook is a collection of plays with Official Rulings approved by the Rules of the Game Commission and based upon the most up-to-date edition of the Rules. These rulings expand on and clarify the spirit and meaning of the Official Rules, and are the official interpretations to be followed during all sanctioned competitions.

In publishing the FIVB Casebook, key situations are highlighted to promote and unify the decision-making process. It is anticipated that this edition of the book will therefore continue to be of great benefit to players, coaches and especially to referees, so that everyone can be confident of consistent decision-making, regardless of who directs the match or at what level of competition.

This edition of the Casebook has been compiled by Klaus Fezer from original work by Yoshiharu Nishiwaki, based on a format by the late Dr Jim Coleman. This foreword acknowledges special help and contributions from other Members of the Rules of the Game Commission, and Gavriel Kraus, President of the International Refereeing Commission, along with other Members of his Commission.

This edition is based upon the 2011-2012 edition of the Rules Text whose mandate was approved by the FIVB Congress in 2010.

Sandy Steel President, FIVB Rules of the Game Commission

#### PART I: THEORETICAL PRINCIPLES OF APPLICATION

The referee is the one who puts the rules into practice. For the correct application of the rules, the referees have to know the rules faultlessly and apply them decisively and correctly within the context of the game. But the more important thing is that they should acquire the basic principles of rule formulation. If not, they could never have the correct comprehensive understanding of the rules and naturally would have great difficulty in applying the rules properly. Especially when a situation, occurs which has not been clearly stated in the rules, the referees can correctly make decisions with authority. **Rule 23.2.3** states, "The referee has the power to decide any matter involving the game, including those not provided for in the rules". Only on the basis of full acquisition of the fundamental principles of formulation and application of the rules can this be done.

For the purpose of correct application of the rules, the referees should have a complete knowledge about the following principle functions and theoretical principles of formulation and application of the rules.

#### 1. The Function of the Rules:

Naturally, if you want to apply the rules correctly, you must know what the functions of the rules are. Generally speaking, the Rules as a whole have the following functions:

#### A. Characterization of the Game:

The rules give the characteristics of the game and differentiate volleyball from other sports.

- a. The rules stipulate the conditions, facilities and equipment of the game, the court surface and measurements, the regulations of the net and the balls, etc.
- b. The rules regulate the number of participants, the number of players in play and their positions, rotational order, etc.
- c. The rules set up the methods of play, how to keep the ball in play, the crossing space, and how to win a point, a set and a match.
- B. Legalization of Techniques:

Many of the Rules give the clear definition and distinct differentiation of the proper techniques from improper and illegal techniques. These rules, under the category of techniques, are the rules which need to be studied and clarified very definitely by the referees for their correct application.

C. Play Under Fair Conditions:

All the rules concerning court, facilities and equipment, techniques or even conduct are equal for all the players of both teams. That is "FAIRNESS". This is a very critical point for refereeing. If the application of the rules is different for the teams that are playing, even if it is not intentionally applied by the referee, it will be unfair. So, accuracy in understanding and application of the rules is the basic element of fairness and justice.

D. Educational Function:

To have Sportsmanlike Conduct is a basic behavioral objective for athletes in all kinds of sports. Chapter Seven, "Participants' Conduct", is stated especially for this purpose. All referees must put their emphasis on this function for this is the core of sports. The aim

of the sport is not only to compete, but also to create an atmosphere of sportsmanship and fairness and to develop understanding and universal friendship.

- The Influential Factors in Formulation of the Rules: The rules must be in accordance with the demands of the development of sports. So in formulation and modification of the Rules, the following factors should naturally be taken into consideration:
  - A. Technical and Tactical Development:

The rules should not only fit the demands of technical and tactical development, but also take the initiative in *leading* the development of the sport as well.

B. The Spectacular Requirements:

The promotion of any sport event, to a considerable extent, depends on its attractiveness. The attractiveness is shown by the level of the emotional motivation of the crowds. That is, therefore, a measure of the SPECTACULAR components generated by the game.

C. The Social Publicizing Requirements:

The development of modern sport depends greatly on the social element, the society. Publicity is the most important and effective way to build up the interest and acceptance of the public to the sport. This is one of the core factors to be considered.

- D. The Economical Requirements: Naturally, in promoting any kind of sport, it is absolutely necessary to have a financial support. Certain concessions should be made for this factor.
- 3. The Fundamental Principles of the Application of the Rules:

The fundamental principles of the application of the rules are naturally based on the above two phases: the function of the rules and the influential factors. On the basis of the requirements of the above two phases, the following points may be recognized as the prominent principles for the application of the rules:

A. Good and Fair Conditions of Play:

The very basic principle is to give all the possible proper conditions and chances to allow the players to play at their highest level of performance. The level of performance shows the level of the sport. Athletes have been trained for years in order to participate in the competition. So, the competition is an important circumstance for athletes to show and to evaluate their training effect and their real playing level. The fair evaluation of the level of athletes, or the real result of a match or competition, comes only from the full exhibition and utmost performance of the players. For a referee, it is necessary to be conscious of the fact that every single technical judgment will have an obvious psychological influence on the players. Any psychological influence will cause a positive or negative effect. Therefore, one of the fundamental requirements for the referees is to give the proper chances for the highest level of performance of the players.

From this point of view, the very critical point regarding the judgment of the referee is its evenness and stability. The material basis of evenness and stability of judgment is

accuracy, and the mental basis is fairness. Another point for referees to facilitate a high level of performance is to control properly the tempo of playing. It should be neither too fast nor too slow.

B. Encourage the Spectacular:

Spectacle is a very core element in the promotion of the sport. To arouse the enthusiasm of the spectators is also a factor, which should be fully considered by the referee. For example, the referee should consider how to reduce and shorten the interruptions, and how to develop more highlights during play. The referee may not take the initiative to motivate the spectators, but at least the referee must neither discourage the crowds nor dampen their enthusiasm. The referee also has a responsibility to promote the sport.

C. The Collaboration of the Officials:

The administrative basis for the best refereeing work, the proper match direction, is the collaboration within the refereeing corps. Each member of the referee corps has particular authorities and responsibilities as stipulated in the rules. Each member of the refereeing corps has a special position on the court optimally designated to carry out the duty assigned. Although this position may cause a limitation to the over-all vision of the game by that person, it is designated so that the refereeing team may have a better view of the total game. Thus, full collaboration between officials is the only way to insure correct judgment and to carry out exactly the duties and responsibilities assigned.

In conclusion, by synthesizing all of the above points, we may realize that a referee is not only the person who carries out the duty of directing the match and correctly applying the rules, but also the one who should consider the influences of the psychological, social and technical factors of the game. The referee is not only an organizer nor a referee, but also an educator and a promoter.

#### THE RULES FOR THE CASEBOOK 2012 EDITION

The 2012 Casebook is a reflection of the rules, which were put into effect by the 2008 FIVB Congress. While other rules and philosophical changes are always likely to be considered, as a sport and its society changes, it is worth remembering that the rulings shown here are those relating to the rules in force *today*.

Note: The teams are marked with 'A' or 'B'.

The changes of the 2012 edition, compared with the 2011 edition:

Most of the cases remain the same, only small modifications in wording have been made.

If necessary, the cases have been re-numbered, the old numbers remain in brackets.

Completely deleted are the cases 3.13 and 5.29 to 5.31.

Corrected or completed cases are:

3.9
 3.15
 3.33
 3.39
 3.45
 5.11
 5.14
 5.15
 7.7

New cases are:

4.22 4.23

In the appendix the case numbers are listed together with the corresponding rules. The case numbers are linked with the cases.

#### WEARING FORBIDDEN OBJECTS

| A player wore a ring with a sharp diamond on<br>her finger. The 1 <sup>st</sup> referee asked her to<br>remove it. She replied that it would be<br>impossible. Is she allowed to play with the<br>ring? | The principle of the rule is that she must<br>remove her ring. If this is really impossible, it<br>must be taped, so that she and the other<br>players are protected from injury. It is<br>important for the referee to tell both the<br>player and the coach, that the player in<br>violation of the rule is liable for the<br>consequences of any injury caused by this<br>ring.<br><b>Rule 4.5.1</b> |

Therefore the game captain asked the 1 <sup>st</sup> referee for a line-up check of the opponents. Is this allowed?                  | <b>Ruling:</b><br>If such request is of an infrequent nature, the 1 <sup>st</sup> referee will direct the 2 <sup>nd</sup> referee to make a line-up check of the opponents. However, the only information that will be provided to the opponents will be whether or not the players are correctly positioned. No information will be given about which players are front or back row players.<br><b>Rule 5.1.2.2</b> |

How does the game<br>captain legally and politely request him to<br>ask the line judge for his signal?  | <b>Ruling:</b><br>At the end of the rally, the game captain may<br>raise one hand in a polite gesture to request<br>to speak to the 1 <sup>st</sup> referee. He may request<br>an explanation for the interpretation of the<br>judgment. The 1 <sup>st</sup> referee must honour the<br>request.<br><b>Rules 5.1.2.1, 20.2.1</b>   |

| <b>1.9</b><br>In sets one and two of a match one coach had disagreements with the 1 <sup>st</sup> referee. The coach then walked to the 2 <sup>nd</sup> referee and insisted on explanations about the judgment of the 1 <sup>st</sup> referee. Twice the 2 <sup>nd</sup> referee talked with him for more than ten seconds. Is this the correct application of the rules by the 2 <sup>nd</sup> referee? | <b>Ruling:</b><br>According to <b>Rule 5.1.2</b> , only the game captain is authorized to speak to the referees to request explanations. The coach is not authorized to do so.<br>The 2 <sup>nd</sup> referee should refuse to talk with the coach and should ask him to return to his designated place. If this is not effective, the 2 <sup>nd</sup> referee should immediately inform the 1 <sup>st</sup> referee for the appropriate sanctions.<br>Normally the 1 <sup>st</sup> referee will warn the coach about the behaviour, communicating through the game captain. There is no penalty.<br>If the behaviour of the coach continues, the 1 <sup>st</sup> referee will sanction the coach by issuing a penalty (yellow card) for rude conduct, through the game captain, resulting in a point and service to the opponents.<br><b>Rules 5.1.2, 5.2.3.4, 21.1, 21.2, 21.3</b> |

Is this an<br>acceptable procedure to request a time-out?   | <b>Ruling:</b><br>This is an acceptable procedure to call a time-out. The coach has the responsibility to request a time-out which includes both pushing the buzzer and giving the hand signal. In order to facilitate the flow of the match along with the new rights of the coach to move in the free zone, he is allowed to authorize another team member, not necessarily the assistant coach, to push the buzzer, but the coach must still give the official hand signal.<br><b>Rules 5.2.1, 5.2.3.3, 5.3.1</b>   |

| <b>1.11</b><br>During a match the assistant coach and the trainer of a team jumped off the bench and followed the coach by running along the side line. The 1 <sup>st</sup> referee did nothing to prohibit this behaviour. Is this an acceptable behaviour of the team members?  | <b>Ruling:</b><br>The rules allow only the coach to move freely<br>in the free zone, between the extension of<br>the attack line and the warm-up area. For<br>this competition the coach is constrained to<br>performing her function from behind the<br>coach's restriction line. The other members<br>of the staff must sit on the bench or be in the<br>warm-up area. The 1 <sup>st</sup> referee should have<br>warned the coach about this matter through<br>the game captain, and have instructed the<br>assistant coach and trainer to sit down.<br><b>Rules 5.2.3.2, 5.2.3.4, 5.3.1</b>  |

| <b>1.12</b><br>In a match a coach entered the court by way of the back line to give instructions to his Libero. On another occasion, the coach illegally stood between the extended attack line and the extension of the centre line. His position there blocked the scorer's view of the server. What is the correct response of the referees to this behaviour?                                       | <ul> <li>Ruling:<br/>The coach, and only the coach, has the right to walk in the free zone during the match between the extension of the attack line and the warm-up area. The coach has no right to enter the court to carry out coaching functions. He was therefore not correct on three points. He is not allowed to:</li> <li>1. be behind the court in the service zone</li> <li>2. be within the extension of the attack line and the centre line</li> <li>3. enter the court</li> <li>On the first occurrence in the match, the first referee should issue, through the game captain, a minor misconduct warning to the coach. He should be reminded of the limits of the coaching freedom.</li> <li>Rule 5.2.3.4</li> </ul> |
| <ul> <li>1.13</li> <li>In a match, a coach was using crutches to perform his duties. During the rallies he sat on the bench with the crutches being in front of the bench. During time-outs and intervals he used the crutches in the free zone in front of the team's bench.</li> <li>Can the coach be allowed to use the crutches in the free zone to perform his duties during the match?</li> </ul> | Ruling:<br>To stand or walk with crutches is not<br>forbidden for the coach.   |

#### **CHAPTER 2: PLAYING FORMAT**

#### THE TOSS

| <b>2.1</b><br>After winning the toss of the coin before the first or the fifth set of a match, the team captain of 'A' asked for the left court and the service – did he have this right? | <ul><li>Ruling:<br/>The winner of the toss has the following options:</li><li>1. to serve,</li></ul>   |
|---|--|
|   | <ol> <li>to receive the service,</li> <li>to choose the side of the court, .</li> </ol>  |
|   | Therefore, if the winning team captain chooses a court, the losing team captain must take the other court and may also choose whether to serve or to receive. If the winning captain chooses to serve, the losing captain must receive but may choose the appropriate court. If the winning captain must take the service but may choose the appropriate court. Rule 7.1.2 |

#### POSITIONAL AND ROTATIONAL FAULTS

| <b>2.2</b><br>In a match a centre back row player was standing clearly in front of her centre front player. Just before the service hit by the opposing team's server, the back row player jumped into the air and was therefore not in contact with the court in front of her front row player at the moment of the hit for the service. Was this a legal position for the team? | <b>Ruling:</b><br>When players jump from the floor, they retain<br>the status that they had at the point of their<br>last contact with the floor. Therefore, while<br>the back row player was in the air, the point<br>of his last contact with the floor was retained<br>and she was in front of her front row player<br>and out of position, so the award of a point<br>and service to the opponents should be the<br>result.<br><b>Rules 7.4, 7.4.2, 7.4.3</b> |
|---|---|
| <b>2.3</b><br>At the moment of the service hit, the centre back player was standing with both feet slightly behind the feet of his centre front player. The centre back player had a hand on the floor clearly in front of the feet of his front row player at the time the ball was contacted for service. Is this a legal position for the receiving team?                      | Ruling:<br>Legal position. Only the feet which are in<br>contact with the floor are considered when<br>determining whether players make a<br>positional fault.<br>Rules 7.4.3, 7.5  |

| <b>2.4</b><br>During the hit for service, a setter was standing with a part of a foot encroaching onto the opponent's court and the remainder of the foot on the centre line. The 2 <sup>nd</sup> referee whistled him for being in faulty position by not being fully within the boundary lines of his court at the time the opponent server hit the ball for service. Is the 2 <sup>nd</sup> referee's decision correct?  | Ruling:<br>Correct decision by the 2 <sup>nd</sup> referee.<br>Rules 1.3.3, 7.4   |
|---|---|
| 2.5<br>In the third set a team received the service<br>and won the rally. Player #3 of the team<br>should have rotated to serve. However,<br>actually player #5 served. This fact was<br>missed by the scorer. Player #5 served three<br>points. After two more rallies it was again this<br>team to serve.<br>Player #11, following #5, naturally rotated to<br>the service position.<br>After the service hit, the scorer announced<br>the fault of the incorrect server. A check on<br>the score sheet showed, that the only fact<br>which could be identified was that #5 should<br>be the server. A later viewing of a video tape<br>showed the facts, but these were unable to<br>be detected from the score sheet.<br>The referee decided to give a point and the<br>service to the opponents because of the<br>service of #11 and the team had to return to<br>the correct rotational position. There was no<br>cancellation of points. Was the decision of<br>the 1 <sup>st</sup> referee correct? | Ruling:<br>Based on the information available to the<br>referee, the decision by the 1 <sup>st</sup> referee was<br>correct.<br>Rules 7.7.1, 23.2.3 |

The scorer told the 2<sup>nd</sup> referee that player #10 was the correct server.</li> <li>Player #10 then served four points. Before #10 could serve again, the scorer informed the 2<sup>nd</sup> referee that in fact player #8 should have been the server.</li> <li>The 1<sup>st</sup> referee ruled that the four points scored by player #10 would be cancelled. The team returned to the score and position in which #8 should have served.</li> <li>All team time-outs and substitutions occurring during those four rallies were cancelled, but not the TTO's.</li> <li>Player #8 was then allowed to serve and the game continued from the point where the game captain requested to know the correct converted.</li> </ul> | Ruling:<br>The referee's decision was correct.<br>In situations like this, misconduct sanctions<br>and Technical Time-Outs remain as played.<br>The teams must revert to as close to their<br>original line-up as possible.<br>These events must be recorded on the score<br>sheet. |

#### **CHAPTER 3: PLAYING ACTIONS**

## PLAYING THE BALL

| <b>3.1</b><br>A receiver passed the service very poorly<br>and the ball flew over the net outside of the<br>antenna. The setter pursued the ball into the<br>opponent's free zone and played it back in<br>the direction of his court. Unfortunately for<br>the setter, the ball did not pass over the net,<br>but went towards the net on the opponent's<br>side where the opponent's middle blocker<br>caught the ball.<br>The 1 <sup>st</sup> referee whistled before the ball was<br>caught and signalled "ball out".<br>Is this the correct signal by the referees? At<br>what moment does the ball become "out"? | Ruling:<br>The signal of the referee was correct,<br>because this ball had become "out" when it<br>had left completely the space above the free<br>zone on the opponent's side of the net.<br>The ball would also have been out if it had hit<br>an opponent player in the free zone, so long<br>as he was not attempting to prevent an<br>opponent's return of the ball to the other side<br>of the net.<br>Rules 10.1.2, 10.1.2.2  |
|--|--|
| <b>3.2</b><br>In an attempt to play the first ball in the back<br>row, an attacker hit the ball with the palm of<br>one hand up. The 1 <sup>st</sup> referee allowed the<br>game to continue. Was this the proper<br>response of the 1 <sup>st</sup> referee?  | <b>Ruling:</b><br>The hit must be judged by the quality of the ball contact – i.e. whether or not the ball was caught and/or thrown. The 1 <sup>st</sup> referee must not be too hasty in whistling this play unless he can clearly see that the ball is caught and/or thrown.<br><b>Rules 9.2.1, 9.2.2, 9.3.3, 9.3.4</b>  |
| <b>3.3</b><br>In a match a player spiked the ball into a block. The ball rebounded back into the attacker's court where a player attempted to play the ball with her forearms. The ball rebounded from one arm to the other and then onto her chest during one action and without being caught or thrown. The 1 <sup>st</sup> referee allowed the game to continue. Is this correct?   | <ul> <li>Ruling:<br/>The decision of the 1<sup>st</sup> referee was correct.<br/>This was the first team hit of a ball being<br/>received from the opponents. Therefore,<br/>successive contacts are legal since they<br/>occurred during one playing action and the<br/>ball was not caught or thrown.</li> <li>"First hit" cases, in which successive<br/>contacts are allowed, are:</li> <li>1. Reception of the service.</li> <li>2. Reception of an attack hit. This can be<br/>either a soft or a hard attack.</li> <li>3. Reception of a ball blocked by one's own<br/>team.</li> <li>4. Reception of a ball blocked by the<br/>opponent.</li> <li>Rules 9.2.3.2, 14.2</li> </ul> |

| <b>3.4</b><br>A player attempted to block an attack hit. The ball hit her hands and dropped down between her and the net. She retrieved the ball with an underhand swing of one arm. The ball briefly hit her arm and body. The 1 <sup>st</sup> referee whistled and signalled a "catch". Is this correct?                                  | Ruling:<br>The contact of the ball will determine whether<br>it is legal or a "catch". Since it is a first team<br>hit of the ball, the blocker has the right to<br>successive contacts so long as she makes<br>only one action to play the ball. It is possible,<br>however, to whistle a "catch" or "throw" on<br>the first hit.<br>Rules 9.2.2, 9.2.3.2, 14.2                            |
|---|---|
| 3.5<br>In a match a player received the service. She<br>passed the ball over the net where the front<br>row centre player, in a blocking action,<br>"redirected" the ball to the floor of the<br>opponents. Is this legal?  | <b>Ruling:</b><br>It is legal to block the ball and direct it back<br>to the opponent's court. The 1 <sup>st</sup> referee must<br>decide upon the legality of the blocker's<br>contact with the ball. The only consideration<br>is whether the ball was legally hit or "caught<br>and/or thrown". The illegal contact of "catch"<br>is possible to occur in blocking.<br><b>Rule 9.2.2</b> |
| <b>3.6</b><br>A player jumped into the air trying to retrieve<br>the ball near the spectator seats. After<br>contacting the ball, he landed in the seats. Is<br>this a legal action?  | Ruling:<br>Legal play. A player is allowed to play a ball<br>beyond his/her own side of the free zone.<br>Outside of the playing area, but only on<br>his/her side of the court, a player may take<br>support from a team-mate or any structure in<br>order to reach the ball.<br>Rules 9, 9.1.3  |
| <b>3.7</b><br>During a rally, a player chased the ball into<br>the spectator stands. Just as she was about<br>to hit the ball, a spectator reached up to<br>catch the ball. The coach requested a replay<br>because of the spectator's interference. The<br>referee refused. Was this a correct decision<br>of the 1 <sup>st</sup> referee? | Ruling:<br>Yes. The player is allowed to retrieve the ball<br>from his/her own side of the spectator stands<br>or anywhere outside the playing area<br>including the team bench.<br>On the other hand, while the player has<br>priority for the ball within the playing area,<br>she has no such priority outside of the<br>playing area.<br>Rules 9, 9.1.3                                 |

| <b>3.8</b><br>In a match there was a very powerful attack by a player. The reception of this by an opponent was not very successful and the ball rebounded far off the court. Another player of this team raced after the ball and made a sensational set as she fell over the advertising panels marking the edge of the free zone. The extraordinary effort caused great applause from the crowd. However, the 1 <sup>st</sup> referee blew his whistle and signalled that the ball was caught and thrown. The crowd  | <b>Ruling:</b><br>The referee should not be considered only as<br>a person who directs the match and<br>mechanically applies the rules, but also as<br>someone who has responsibility for the<br>promotion of volleyball. For this, allowing<br>spectacular actions is a very core element.<br>The referee should not initiate action for the<br>pleasure of the crowd, but he also should not<br>discourage it! He should make an<br>appropriate balance between the technical<br>and the social effects of his actions. So it is         |

| was quite vocal in expressing displeasure<br>with the referee's decision. Was the referee<br>correct, and how should the 1 <sup>st</sup> referee<br>control his whistle in this situation?  | absolutely necessary, to a certain extent, to<br>sacrifice something technically for some<br>more basic social effects. This is the "art" of<br>refereeing!  |
| <b>3.9</b><br>In a match a player from 'B' spiked the ball against the opponent's blocker. The ball went off the blocker's hands, over the antenna partially outside the crossing space and over the 1 <sup>st</sup> referee into the free zone of 'B'. A back row player of 'A' pursued the ball to play it back to his side of the net. The line judge signalled the ball "out" and the 1 <sup>st</sup> referee whistled the rally won by 'B'. The game captain of 'A' argued that the ball had passed over the antenna partially through the external space and thus was able to be played back by his team. Has the ruling by the 1 <sup>st</sup> referee been correct? | Ruling:<br>The 1 <sup>st</sup> referee's decision was not correct.<br>The ball passed over the antenna into the<br>opponent's free zone partially through the<br>external space. Therefore it was legal for<br>team 'A' to return the ball to its own court<br>through the external space on the same side<br>of the court. The line judge should have<br>given no signal while the ball was still in play.<br>Rule 10.1.2   |
| <b>3.10</b><br>In a match, after the second hit of a team, the ball crossed the net plane through the external space. The responsible line judge showed the corresponding flag signal, but the 1 <sup>st</sup> referee didn't react. After the match, the line judge asked him why he ignored his signal. What would be the right answers of the 1 <sup>st</sup> referee?   | <ul> <li>Ruling:<br/>The referee is not allowed to whistle before a mistake occurs. This ball could legally be played back with the 3<sup>rd</sup> hit of the team. So he can only whistle in the following cases:</li> <li>The ball touches an opponent player;</li> <li>the ball goes out;</li> <li>the ball leaves the opponent's free zone;</li> <li>the ball, when played back, crosses through the crossing space;</li> <li>the team makes its 4<sup>th</sup> hit;</li> <li>the player touches the opponent's free zourt.</li> </ul> |

#### PENETRATION UNDER THE NET

| <b>3.11</b>   | <b>Ruling:</b>  |
|---|---|
| A back row player jumped from behind the attack line, made a sensational attack and landed with his heels on the centre line, but with most of his feet on the feet of the opponent's blocker. The blocker made an attempt to play the next ball but could not move rapidly enough to get it. He appealed to the 2 <sup>nd</sup> referee for interference, but the referee ignored this appeal. Similar confrontations occurred on numerous occasions during the match and were ignored each time by the 2 <sup>nd</sup> referee? | <b>Rule 11.2.1</b> states, "It is permitted to penetrate into the opponent's space under the net, provided that this does not interfere with the opponent's play." It is quite clear that interference is not allowed. It is reasonable to assume that a player who is entirely on his own court and is hit or is stepped on by an opponent has experienced "interference". In this case, the offending player should be penalized. It is one of the responsibilities of the 2 <sup>nd</sup> referee to observe this potential fault and whistle when it occurs, as in this case. <b>Rules 11.2.1, 11.2.2.1, 11.2.4</b> |
| <b>3.12</b><br>An attacker swung a foot so that it accidentally hit the opponent's blocker under the net. The contact prevented the opponent's player from playing the ball rebounding from the block and his team lost the rally. What should be the response of the 2 <sup>nd</sup> referee?  | <b>Ruling:</b><br>The 2 <sup>nd</sup> referee should have whistled the attacker for an illegal action since he interfered with the opponent's player. The rally should have been won by the blocker's team.<br><b>Rule 11.2.1</b>   |

## PLAYER AT OR CONTACTING THE NET

| 3.13 (3.14)<br>A player passed the ball poorly and the back<br>row setter had to move into the back zone to<br>set the ball. When she turned, she slightly<br>touched the net. The referee did not whistle<br>this net contact. Was the decision correct?   | Ruling:<br>The decision was correct, since the action<br>did not interfere with the play.<br>Rules 11.3.1, 11.4.4   |
|---|---|
| <b>3.14</b> (3.15)<br>In a match a player passed the ball towards<br>the net. The ball penetrated its vertical plane.<br>The setter reached across the plane of the<br>net and set the ball, so that his attacker,<br>could make an attack hit. The 1 <sup>st</sup> referee<br>whistled the play as a fault. Is this play<br>illegal? | <b>Ruling:</b><br>The decision of the 1 <sup>st</sup> referee was correct.<br>Above the top of the net, a player is not<br>allowed to penetrate the vertical plane to<br>contact the ball and return it to his own court.<br>Thus, the action of the setter was not legal. A<br>similar play under the net is different. Here<br>the play is illegal only if the ball has<br>completely crossed the vertical plane of the<br>net.<br><b>Rules 9, 11.2.1</b> |

| <b>3.15</b> (3.16)<br>A player attacked the ball which was set on<br>top of the net. An opponent contacted the<br>ball at the same time above the net but<br>without reaching beyond the net. After the<br>simultaneous contact, the ball landed outside<br>the opponent's court. The 1 <sup>st</sup> referee<br>awarded the rally to the attacker's team. Was<br>this a correct decision by the1 <sup>st</sup> referee?  | Ruling:<br>The decision of the 1 <sup>st</sup> referee was wrong. If<br>after a simultaneous contact by opponents<br>the ball lands outside a court, it is the fault of<br>the team on the opposite side. The rally<br>should have been won by the opponent's<br>team.<br>Even if the contact of the ball by the two<br>opponents on the top of the net is of an<br>extended duration, the rally is simply allowed<br>to continue.<br>Rules 9.1.2.2, 9.1.2.3 |
|---|--|
| <b>3.16</b> (3.17)<br>A player from 'A' was blocking the attacker<br>from 'B'. The attack drove the net into the<br>blocker's forearms. The 1 <sup>st</sup> referee did not<br>signal a touch of the net even though the<br>blocker was in the action of playing the ball.<br>Is this correct?  | Ruling:<br>The 1 <sup>st</sup> referee's decision was correct. If the<br>net hits the blocker, there is no fault. If the<br>blocker hits the top of the net (white band)<br>during his action, she commits a fault.<br>Rules 11.3.3, 11.4.4  |
| <b>3.17</b> (3.18)<br>During a match a player blocked a ball which<br>was spiked very hard by an opponent<br>attacker. The ball bounced off the hands of<br>the blocker and far beyond the end line of his<br>court. The Libero ran off the court and made<br>a diving slide to retrieve the ball. All of the<br>spectators concentrated on this exciting play<br>and cheered the great play of the Libero.<br>After the blocker landed from the block,<br>finishing his blocking movement, he turned to<br>continue to play. Just as he turned, he<br>slightly touched the net with his shoulder.<br>The 2 <sup>nd</sup> referee whistled touch of the net.<br>Should this have been called a fault? | Ruling:<br>The decision of the 2 <sup>nd</sup> referee was not<br>correct. Rule 11.3.1 states that the contact of<br>the net is not a fault except where it<br>interferes with the play.<br>Rules 11.3.1, 11.4.4   |

| <b>3.18</b> (3.19)<br>Three attackers ran towards the net and their<br>setter set a very deceptive ball to his attacker<br>in position 4. The opponent's block deflected<br>the ball into its back court. At the same time,<br>as the attacker hit the ball from position 4, an<br>opponent's player hit the net trying to block<br>the attacker in position 2. The 2nd referee<br>whistled because the blocker touched the<br>net. Is this the correct decision of the 2nd<br>referee?       | Ruling:<br>No, the decision of the 2 <sup>nd</sup> referee was not<br>correct.<br>The purpose of the new rule is, to reduce the<br>number of situations which artificially shorten<br>the rally.<br>The attack was from position 4 and the net<br>contact was in position 2. Since neither the<br>attacker nor the blocker were involved in<br>playing the ball in any way, and the touch of<br>the net did not interfere with the play, it is a<br>legal action and the game should not have<br>been stopped.<br>Rule 11.3.1 |
|---|---|
| 3.19 (3.20)<br>In a match the middle attacker approached to<br>hit the ball. His setter mistimed the set and it<br>went over the attacker's head and fell to the<br>floor untouched by any other player.<br>While attempting to block, the opponent's<br>middle blocker touched the top band of the<br>net. This occurred before the ball touched<br>the court. The referee whistled a fault on the<br>middle blocker. Was the decision of the 1 <sup>st</sup><br>referee correct?            | <b>Ruling:</b><br>The decision of the 1 <sup>st</sup> referee was correct.<br>The middle blocker was playing the ball<br>when he made contact with the top band of<br>the net, even though the ball contacted<br>neither the attacker nor the blocker.<br><b>Rules 11.3.1, 11.4.4</b>   |
| <b>3.20</b> (3.21)<br>A team was running a quick combination play<br>with two attackers and the setter in the<br>middle of the court. Instead of setting to the<br>middle, the setter set the ball to an attacker<br>in position 4. As he did so, the opponent's<br>middle blocker reached over the net and<br>touched its top band while attempting to stop<br>the combination play. The 1 <sup>st</sup> referee<br>whistled the middle blocker for a net fault. Is<br>the decision correct? | <b>Ruling:</b><br>Yes, the decision was correct. If the referee<br>considers the player and the ball are close<br>enough to each other and the player touches<br>the top band of the net, the decision was<br>correct and the touch of the top band of the<br>net was indeed a "net fault".<br><b>Rules 11.3.1, 11.4.4</b>  |
| <b>3.21</b> (3.22)<br>A player received the service for the match point. After attacking the ball, the attacker landed on the floor a little off balance, took two steps and slightly brushed against the net outside of the antenna while the ball was still in play. The 1 <sup>st</sup> referee whistled the fault which ended the match. Was this the correct decision by the 1 <sup>st</sup> referee?  | Ruling:<br>The decision of the 1 <sup>st</sup> referee was not<br>correct. Since there was no interference of<br>the play, the net touch was not a fault.<br>Rules 11.3.1, 11.3.2, 11.4.4   |

### SERVICE

| <b>3.23</b> (3.24)<br>A player had moved into the serving position instead of the correct server. As soon as he had hit the ball for service, the scorer signalled the fact to the 2 <sup>nd</sup> referee who stopped the game. Is this the correct action by the scorer?   | Ruling:<br>Correct action by the scorer. When a wrong<br>server is ready to serve the ball, the scorer<br>must wait until the service action has been<br>completed before notifying the referees of<br>the infraction. The scorer may have a bell,<br>buzzer or some other sound device to signal<br>the fault.<br>Rules 7.7.1, 12.2.1, 12.7.1, 25.2.2.2 |
|--|--|
| <b>3.24</b> (3.25)<br>After a Technical Time-Out a wrong server<br>was preparing to serve. The 1 <sup>st</sup> referee<br>whistled for service. The serving team<br>recognized the mistake and the correct<br>server entered the service zone ready to<br>serve. The referee whistled to authorize the<br>service again. Is this a correct action by the<br>referee? | Ruling:<br>The decision of the referee is wrong.<br>Authorization for the service is made only<br>once by the whistle and the hand signal - the<br>service must be made by the correct player<br>within 8 seconds from that authorization.<br>Rule 12.4.4  |
| <b>3.25</b> (3.26)<br>In a match the server threw the ball up into<br>the air, but then let it drop down. She then<br>caught the ball from the bounce and<br>immediately served before the end of the 8<br>seconds allowed for service. Was this a legal<br>action for the server?   | <b>Ruling:</b><br>The action of the server was not legal. The ball must be hit with one hand or any part of the arm after being tossed or released from the hand(s). Any action considered by the 1 <sup>st</sup> referee to be a "toss for service" must end with the ball being hit for the service.<br><b>Rule 12.4.2</b>                             |
| <b>3.26</b> (3.27)<br>The served ball touched the net and the antenna before being played by the receiving team. The 1 <sup>st</sup> referee whistled for a service fault. Is this a correct decision by the 1 <sup>st</sup> referee?  | Ruling:<br>The decision of the 1 <sup>st</sup> referee is correct. A<br>ball touching the antenna is "out".<br>Rule 8.4.3  |

| <b>3.27</b> (3.28)<br>During a match the served ball hit the net just<br>under the white band at the top of the net.<br>The 1 <sup>st</sup> referee whistled immediately to stop<br>the game. When should he whistle?  | <b>Ruling:</b><br>The 1 <sup>st</sup> referee whistled at the correct time.<br>The served ball must pass through the<br>crossing space. If it does not, the service is<br>automatically a fault and must be whistled by<br>the 1 <sup>st</sup> referee at that moment. The 1 <sup>st</sup><br>referee must not wait until the ball hits the<br>floor or a player of the serving team.<br><b>Rule 12.6.2.1</b>  |
|--|--|
| <b>3.28</b> (3.29)<br>A team was in possession of the ball in preparation to serve. The game captain requested confirmation of the correct server. The scorer gave the information that player #6 should be the server. The game captain doubted this information and insisted again that player #1 should be the server. He was still not satisfied and while attempting to approach him, the 1 <sup>st</sup> referee whistled for service. Amidst confusion, the team was penalized for not serving within the allowed 8 seconds.<br>In the score sheet it was found that the coach of the team had submitted an incorrect line-up, which had player #6 in two positions. It should have been #6 and #1. Number #1 should have been serving as the game captain surmised. What is the correct ruling by the 1 <sup>st</sup> referee? | <b>Ruling:</b><br>Common sense must prevail in resolving this case. The initial error was that of the coach, when he submitted his incorrect line-up. This was compounded by the inattention of the 2 <sup>nd</sup> referee and the scorer.<br>Therefore, the team should not be penalized for the incorrect server, and player #1 should be allowed to serve.<br>On the other hand, the original error of the coach caused a delay of the game, thus a delay sanction must be applied.<br>Furthermore, the 2 <sup>nd</sup> referee must request a new line-up sheet from the coach. |
| 3.29 (3.30)<br>In a match 'A' served. The ball hit the net and<br>dropped towards the floor on 'A's' side of the<br>net. A player of 'B' reached under the net<br>and caught the ball before it hit the floor. Is<br>this allowed?   | <b>Ruling:</b><br>The ball is in play until the 1 <sup>st</sup> referee will be<br>sure that the ball will not cross the net legally<br>and that a fault has occurred. Then the 1 <sup>st</sup><br>referee must whistle immediately. Thus, the<br>player may catch the ball as soon as the<br>referee blows the whistle to indicate a fault.<br><b>Rule 12.6.2.1</b>   |

### ATTACK HIT

| <b>3.30</b> (3.31)<br>A back row setter jumped from within the attack zone and set the ball while it was completely above the height of the net towards an attacker. Before the attacker could contact the ball, it penetrated the vertical plane of the net where it was blocked by the opponent's setter. The 1 <sup>st</sup> referee allowed the rally to continue. Is this correct?   | <b>Ruling:</b><br>The 1 <sup>st</sup> referee's decision was not correct.<br>The set became an illegal attack hit by a<br>back row player when the attack hit was<br>completed (in this case by contacting the<br>opponent's block). The rally should have<br>been won by the opponents.<br><b>Rule 13.1.3</b>   |
|---|--|
| <b>3.31</b> (3.32)<br>On a second team hit, the back row setter<br>jumped from within the front zone and<br>contacted the ball while it was fully above the<br>height of the net. Instead of setting the ball to<br>a teammate, he decided to tip the ball across<br>the net. Before the ball reached the vertical<br>plane of the net, the opponent's blocker<br>reached fully beyond the plane of the net and<br>blocked the ball. What was the correct call of<br>the 1 <sup>st</sup> referee? | Ruling:<br>The correct decision is that the opponents<br>won the rally, because the completed attack<br>hit was made within the front zone by a back<br>row player who contacted the ball entirely<br>above the height of the net.<br>As soon as the ball was touched by the<br>blocker, the illegal attack hit was completed.<br>Rules 13.1.1, 13.1.3, 13.2.2, 13.3.3 |
| 3.32 (3.33)<br>On 'A's' second hit, a player passed the ball<br>near the net towards the opponent's court.<br>The ball did not penetrate the vertical plane<br>of the net. In the 1 <sup>st</sup> referee's opinion, no<br>player of 'A' could possibly reach the ball.<br>The blocker of 'B' reached across the plane<br>of the net and blocked the ball. What is the<br>correct decision of the 1 <sup>st</sup> referee?  | Ruling:<br>Even though it was only the second team hit,<br>if the ball is moving in the direction to the<br>opponent's court, it is an attack hit. Because,<br>in the referee's opinion, no player of 'A' could<br>possibly have reached the ball, the block of<br>'B' was legal.<br>Rules 13.1.1, 14.3  |
| 3.33 (3.34)<br>A back row player took off in the front zone<br>and as a second hit spiked the ball which<br>was completely higher than the top of the<br>net. After having hit the top of the net, the<br>ball rebounded into the attacker's own court.<br>The 1 <sup>st</sup> referee did not whistle. Was the<br>decision of the 1 <sup>st</sup> referee correct?   | Ruling:<br>The referee's decision was correct in<br>allowing the rally to continue. Since the ball<br>neither crossed the plane of the net nor was<br>contacted by the blocker, the attack hit was<br>not completed. The team had a third hit<br>remaining to direct the ball into the<br>opponent's court.<br>Rules 9.1, 13.1.3, 13.2.2, 13.3.3                       |

#### BLOCK

| <b>3.35</b> (3.36)<br>A player of 'A' passed the received ball so that it came down near the net, but it was too high for the back row setter to reach and the ball crossed the plane of the net. Then the middle attacker of 'B' hit the ball across the net against the raised arm of the setter from 'A', who was still above the height of the net. The ball then rebounded across the net into 'B's' court. Was the decision of the referee correct when he whistled an illegal block? | <b>Ruling:</b><br>Yes, the setter's block was illegal because<br>she was a back row player. Even though she<br>had not intentionally attempted to block, her<br>contact of the ball, when it was higher than<br>the top of the net and near the point of the<br>ball crossing the net made her a blocker.<br><b>Rules 14.1.1, 14.1.3, 14.6.2</b>   |

| 3.36 (3.37)<br>A player reached over the net to block the<br>second hit of the opponent's setter. The 1 <sup>st</sup><br>referee did not blow his whistle. Is it legal for<br>the blocker to reach over the net to block an<br>opponent's "setting" action?   | Ruling:<br>It is absolutely necessary for the 1 <sup>st</sup> referee<br>to determine the action of the setter. He must<br>know whether the set was made parallel to<br>the net or was going towards the net, thus<br>making it an attack hit.<br>In the first case, the blocker would be at fault<br>because the ball was not "coming from the<br>opponent".<br>In the second case, the set was "coming<br>from the opponent" and should therefore be<br>considered to be an attack hit which may be<br>blocked. According to Rule 14.3, it is not a<br>fault to block an attack hit beyond the net. It<br>is important for the referee to be able to<br>differentiate between a "set" and an attack<br>using an overhand pass.<br>Rules 14.1.1, 14.3 |

| 3.37 (3.38)<br>A player of 'A' blocked the attack of 'B'. Then<br>the middle blocker of 'B' blocked the block of<br>'A'. Is it legal to block a blocked ball?   | Ruling:<br>Yes, to block is to intercept a ball coming<br>from the opponent's side, thus it is legal to<br>block an opponent's block.<br>Rule 14.1.1  |
|---|---|
| <b>3.38</b> (3.39)<br>Two blockers made a successful block. Just before the ball landed on the opponent's floor, the ball slightly touched the penetrating foot of one of the blockers who had landed legally partially on the opponent's side of the centre line. The 1 <sup>st</sup> referee ruled a successful block. Is this correct?   | <b>Ruling:</b><br>Correct ruling by the 1 <sup>st</sup> referee. The foot<br>position was legal and the ball touching the<br>foot should be treated as though it had<br>landed on the floor. The blocking team<br>consequently and correctly won the rally. In a<br>similar situation, if the ball had struck the foot<br>of the blocker before the foot was in contact<br>with the floor, the blocker would have<br>interfered with the opportunity of the other<br>team to play the ball and therefore the<br>blocker would have committed a fault.<br><b>Rule 11.2.1</b>   |
| 3.39 (3.40)<br>The player of 'B' on position 2 blocked the<br>ball on the other side of the net. The ball flew<br>some meters parallel to the net before the<br>player on position 4 of 'B' hit the ball with a<br>blocking action down to the floor on the side<br>of team 'A'. The ball had never penetrated<br>into the air space of 'B'. The 1 <sup>st</sup> referee<br>signalled a fault on the block of 'B'. Was this<br>a correct decision by the 1 <sup>st</sup> referee? | Ruling:<br>The decision of the 1 <sup>st</sup> referee was correct.<br>The action of the player on position 4 was<br>not legal. It had not been "one action" with<br>that of the player on position 2 and could not<br>be a collective block. Therefore it was an<br>attack hit by the player on position 4 carried<br>out immediately after the block of the player<br>on position 2 within the opponent's air space.<br><b>Rules 11.1.2, 14.1.1, 14.2, 14.3</b><br>If after the block by the player on position 2<br>the ball had penetrated the plane of the net,<br>the initial contact (attack hit) by the player on<br>position 4 would have had to be made on his<br>side of the net to be legal.<br><b>Rules 13.2.1, 13.3.1, 14.1.1, 14.2</b> |
| <b>3.40</b> (3.41)<br>A player passed the received ball so, that it would have crossed the net if not touched by another player of the same team. The setter was in position to make a legal play on the ball. The opponent's blocker reached across the vertical plane of the net and blocked the ball before the setter could play it. The 1 <sup>st</sup> referee called a fault on the block. Is this a correct decision of 1 <sup>st</sup> referee?                          | <b>Ruling:</b><br>The 1 <sup>st</sup> referee's decision was correct, and<br>the block was illegal. Blockers may not<br>contact the ball across the net until the attack<br>hit is executed, except when in the judgment<br>of the 1 <sup>st</sup> referee, no possibility exists for<br>further play of the ball by the attacking team.<br><b>Rule 14.3</b>  |

One of the blockers hit the ball when he had already come down from his jump and his whole body was lower than the top of the net. When he hit the ball again, the referee called a "double hit". On the request of the game captain of the opponent's team, the referee explained to him that the block attempt of the Libero had been the first mistake. Is the ruling correct? | <b>Ruling:</b><br>The interpretation of the 1 <sup>st</sup> referee is correct.<br>The attack hit becomes a mistake at the<br>moment when the ball has crossed the net<br>totally or the block touched it. #### CHAPTER 4: INTERRUPTIONS AND DELAYS

#### SUBSTITUTIONS

| <b><u>4.1</u></b><br>Three substitute players entered the substitution zone. After the request was recognized and acknowledged by the scorer, the coach decided to make only two substitutions. What is the procedure for the 2 <sup>nd</sup> referee?  | Ruling:<br>This is legal as long as this does not cause a<br>delay. Therefore the 2 <sup>nd</sup> referee simply<br>carries out a double substitution.<br>Rules 15.10.2, 15.10.3a, 15.10.4, 16.1   |

| <b>4.2</b><br>In the 3 <sup>rd</sup> set of a match, one substitute player entered the substitution zone while another one was just leaving the warm-up area and tried to enter the substitution zone. How many substitutions should be allowed under the current rules?  | <b>Ruling:</b><br>The moment of the request is the entrance of the substitute player(s) into the substitution zone. In this case the 2 <sup>nd</sup> referee should grant only the one for the player who entered the substitution zone. The second request should be rejected as improper.<br><b>Rules 15.10.3a, 15.10.3b, 15.11.1.3</b>            |
| <b>4.3</b><br>During a match a substitution was<br>"requested" by a team, by sending the player<br>into the substitution zone. Because the<br>player was not ready to play, his team was<br>sanctioned with a delay warning and the<br>substitution was rejected. As soon as the<br>delay sanction was applied, the team again<br>requested the substitution. Was it allowed to<br>make this second request?                      | Ruling:<br>The substitution was not legal and therefore<br>not allowed. As the first request for<br>substitution was rejected, the team was not<br>authorized to request a second consecutive<br>substitution. At least one rally must be<br>completed before there can be another<br>request for substitution by the same team.<br>Rule 15.3.2      |
| <b>4.4</b><br>In an FIVB Official Competition a coach "requested" a substitution by sending his player into the substitution zone. The substitute player had entered the substitution zone with the wrong "numbered paddle" for substitution. He fumbled to get the correct one. The 1 <sup>st</sup> referee awarded a delay sanction, but allowed the substitution. Is this the correct response by the 1 <sup>st</sup> referee? | Ruling:<br>The decision of the referee was not correct.<br>In FIVB, World an Official Competitions, the<br>substitute player must enter the substitution<br>zone with the correct "numbered paddle".<br>Thus, the request for substitution by the team<br>must be rejected, and a delay sanction must<br>be awarded.<br>Rules 15.10.3a, 16.1.1, 16.2 |

| <b>4.5</b><br>In a match the coach of a team gave the signal to his team for a substitution. At that moment, the substitute player began to run from the warm-up area to be ready to enter the court when the "request" was recognized by the 2 <sup>nd</sup> referee or scorer, but stepped into the substitution zone just as the whistle sounded for service. Since there was only a minor delay caused by the substitution. Is this a proper decision by the 2 <sup>nd</sup> referee? | <b>Ruling:</b><br>The decision of the 2 <sup>nd</sup> referee was not correct. The substitution should not have been allowed. The referee must handle this case with discretion. <b>Rule 15.10.3</b> states that the actual request is the entrance of the substitute player into the substitution zone. If the substitute player causes a delay in the start of the next rally by stepping into the substitution zone late, the substitution will not be granted, and a sanction for delay will result.<br><b>Rules 15.10.3, 16.2</b> |

| <b>4.6</b><br>In a match a team requested a substitution.<br>Player #8 entered the substitution zone with<br>paddle #10. The coach insisted on the<br>substitution with #9. After a short discussion,<br>the 2 <sup>nd</sup> referee rejected the substitution and<br>the team was sanctioned with a delay<br>warning. Was the decision correct?  | Ruling:<br>The decision was correct. The substitution of<br>#8 and #10 would have been legal. However,<br>the coach insisted on the substitution of #8<br>for #9. Because the wrong paddle was<br>shown and this caused a delay, the referee<br>correctly sanctioned the team for delay.<br><b>Rules 16.1.1, 16.2</b>  |
| <b>4.7</b><br>In a match player #5 of a team became injured in the 2 <sup>nd</sup> set and had to be substituted exceptionally. Then, during the same game interruption, the team requested an additional substitution. The 2 <sup>nd</sup> referee accepted the request.<br>Was the 2 <sup>nd</sup> referee's decision correct to accept the request?  | Ruling:<br>Yes, the decision is correct.<br>Player #5 had to be substituted by an<br>exceptional substitution due to force<br>majeure. There were no regular substitutes<br>available and the injury was unforeseen.<br>Because there was originally no substitution<br>request by this team during this interruption,<br>they still had the right to request a legal<br>substitution. Consequently, an exceptional<br>substitution and regular substitution can be<br>taken during the same interruption.<br>Rule 15.7                |

| <b>4.8</b><br>Player #6 of team 'A' was disqualified from the match, legally substituted by #7. This was the first substitution for team 'A' during the set, and there were three more players on the bench. During the next rally, team 'A' player #7 became injured and was not able to continue to play. Therefore, the 1 <sup>st</sup> referee authorized team 'A' to substitute player #7 by | <b>Ruling:</b><br>Rule 15.8 states, "An expelled or disqualified<br>player must be substituted through a legal<br>substitution. If this is not possible, the team is<br>declared incomplete". In the first action a<br>legal substitution of #6 by #7 was made.<br>Once the substitution was complete, all of<br>the players of team 'A' on the court were<br>eligible to play. | <b>4.9</b><br>During the official warm-up before the start of the first set of a match the setter of team 'A' became injured and could not play. He was listed on the line-up sheet as the starting server. The referee allowed the coach to make a substitution for this player. Must he have participated in the game before being substituted?   | <b>Ruling:</b><br>No, the referee correctly allowed the injured player to be removed by a legal substitution. Once the line-up sheet has been submitted to the 2 <sup>nd</sup> referee or to the scorer, the only changes which can be made, except for Libero replacements, are those made through the regular substitution process. Since legal substitutions are possible, such substitutions count as one of the six substitutions allowed to the team in the set. <b>Rules 7.3.2, 7.3.4</b> |
| <b>4.10</b><br>Player #7 of team 'A' was found to be on the court when he should have been on the bench. Team 'A' had used the allowable six team substitutions. | <b>4.11</b><br>After team 'B' had used five substitutions,<br>two substitute players entered the<br>substitution zone. What is the proper<br>response of the 2 <sup>nd</sup> referee?  | <b>Ruling:</b><br>Since team 'B' had used five substitutions, the request for the sixth substitution is valid. Later in the set, while R-5 was at the net, he became injured and had to be substituted exceptionally. When the coach saw R-5 lying on the court, apparently injured very badly, he signalled his team to replace R-2 with the Libero. Now the Libero was in the back row and R-2 on the bench. After it had been determined that R-5 could not continue to play, the coach requested R-2 to enter the game for R-5, using an exceptional substitution. Is this a legal sequence of substitutions? | Ruling:<br>This is not legal. R-2 cannot substitute R-5<br>since he was on the court at the moment of<br>the injury. The injured player should be<br>substituted by an exceptional substitution<br>(the coach may use any player not on the<br>court at the moment of the injury, except the<br>Libero or his/her replacement player).<br>Other actions by the coach must be<br>subsequent to this action.<br>Rule 15.7            |

| <b>4.16</b><br>During the check of the line-up, the 2 <sup>nd</sup> referee realized there was a discrepancy between the line-up sheet and the actual line-up of team 'A'. In position 1 player #5 was on the court instead of player #7, as recorded on the line-up sheet. He mentioned this to the coach, who decided to start the set with the actual line-up on the court. Therefore he used a regular substitution at the score 0-0. The substitution was not executed, but only recorded in the score sheet. Meanwhile, the Libero replaced player #5. Three rotations later, when the Libero rotated to the position 4, he was replaced by #7. The coach requested a substitution was executed, the 1 <sup>st</sup> referee realized that it was a mistake, since this substitution had taken place already at the score of 0-0. After a short discussion with the game captain, he cancelled the second "unnecessary" substitution. The game continued without any sanction. Was it a correct procedure? | Ruling:<br>The referees' decision was correct to cancel<br>the second substitution. #### IMPROPER REQUESTS

| <b>4.26</b> (4.24)<br>The coach of team 'A' attempted to request a substitution late in the set, by calling his substitute player to the substitution zone. The substitute player at first did not hear the coach's summons and was late arriving in the substitution zone. The scorer pressed the buzzer and the game stopped - but by now the 1 <sup>st</sup> referee had whistled for service. The 1 <sup>st</sup> referee cancelled the rally and issued a delay warning and refused to allow the substitution of the player (who was by that time in the substitution zone). An argument with the referees followed. Team 'B' then called a time-out followed by a substitution. 'A' followed this with a substitution request which this time was granted. The game continued with 'A' winning the set and match. | Ruling:<br>This is not a correct ruling by the 1 <sup>st</sup> referee.<br>His first action to reject the substitution for<br>the delay and to give a delay warning was<br>correct, since the coach had requested the<br>substitution by sending the player into the<br>substitution zone.<br>However, the improper request was the<br>second substitution request by 'A', coming<br>directly after the time-out. After about two minutes of therapy, the setter declared that he was able to play again. The referee then signalled to continue the match with him. Was this the correct decision by the 1 <sup>st</sup> referee?  | <b>Ruling:</b><br>The decision of the 1 <sup>st</sup> referee was correct.<br>For the safety of the player, the 1 <sup>st</sup> referee<br>must stop the rally immediately when an<br>injury occurs and permit the team doctor<br>and/or medical assistance to enter the court.<br>If the injury appears to be serious and severe<br>enough, the player should be removed from<br>the court for at least one rally.<br>The principle decision by the 1 <sup>st</sup> referee is to<br>give the player or/and the team doctor a<br>reasonable time to know the seriousness of<br>the injury, yet to limit the time before the<br>substitution is required. The removal of the<br>injured player must take place by a regular<br>substitution. If this is not possible, an<br>exceptional substitution must be used.<br><b>Rules 15.7, 17.1.2</b> |
|---|---|
| <b>4.31</b> (4.29)<br>A team had used 5 substitutions. After that, a player who had been substituted and returned to the match became injured. An exceptional substitution was used to replace him. The 1 <sup>st</sup> referee ruled that this exceptional substitution was now the sixth substitution for the team and that they had no more substitutions in the set. The coach questioned this rules interpretation. What is the correct interpretation of the rules? | <b>Ruling:</b><br>The correct interpretation of the rules is that<br>the injured player may be substituted by an<br>"exceptional substitution". The coach may<br>use any of the players who are not on the<br>court at the moment of the injury except the<br>Libero and his/her replacement player. The<br>exceptional substitution is not counted as<br>one of the six substitutions.<br><b>Rules 15.1, 15.6, 15.7</b>  |
| <b>4.32</b> (4.30)<br>During a rally a player received a blood<br>injury. After the end of the rally the 1 <sup>st</sup> referee<br>called him and instructed him to ask for<br>immediate medical help to stop the bleeding,<br>because it is forbidden to play with a still<br>bleeding wound. The treatment lasted about<br>one minute. After the bleeding was stopped,<br>the game continued. Was the procedure by<br>the 1 <sup>st</sup> referee correct?             | <b>Ruling:</b><br>It is not allowed to play with a bleeding<br>wound, independent of the seriousness of<br>the injury. Referees have to stop the game<br>immediately after realizing the injury and<br>instruct the player to ask for a medical<br>intervention. The team is not obliged to<br>substitute the player. Therefore it was an<br>acceptable procedure by the 1 <sup>st</sup> referee to<br>give neither a delay sanction nor to ask the<br>team for a game interruption.<br><b>Decision of the Medical Commission of<br/>FIVB</b>   |

### DELAYS TO THE GAME

| <b>4.33</b> (4.31)<br>Prior to the start of the third set of a match, the 1 <sup>st</sup> referee whistled the teams to enter the court. One team did not react. When they were too slow to respond, the 1 <sup>st</sup> referee issued a delay warning to them.<br>The team then entered the court. Was this the appropriate action by the 1 <sup>st</sup> referee?  | <b>Ruling:</b><br>Yes, the 1 <sup>st</sup> referee acted correctly. The teams must be summoned to take their positions on the court. If they do not react, the 1 <sup>st</sup> referee must issue a delay warning to them, and this must be recorded on the score sheet. If the team still did not react, a delay penalty, indicated by a yellow card, would have been given. If this also proved to be ineffective, it would have been judged a refusal to play, the team would have been declared to be in default and the match would have been forfeited. In such a case, the score would have been recorded as 0:3 (0:25, 0:25, 0:25). If a team is returning slowly to the court after a time-out, the same procedure should be followed. <b>Rules 6.4.1, 16.1</b> |

| <b>4.34</b> (4.32)<br>After winning a rally, the team formed a<br>huddle to discuss strategy for the next rally.<br>The 1 <sup>st</sup> referee allowed an adequate time for<br>the players to move to their positions, if they<br>had not huddled together, and then blew the<br>whistle and charged the team with a delay<br>warning because they were not ready to<br>serve. Is this a correct decision by the 1 <sup>st</sup><br>referee? | <b>Ruling:</b><br>This was a correct decision by the 1 <sup>st</sup> referee. There is no requirement for the 1 <sup>st</sup> referee to allow more than a reasonable time for the players to move to their positions for the next rally. The 1 <sup>st</sup> referee must use good judgment in this case. He must allow for appropriate enthusiasm and cheering but cannot allow the game to be delayed.<br><b>Rules 16.1.2, 16.1.5</b>   |

| <b>4.35</b> (4.33)<br>A player refused to play because of a wet<br>place on the floor caused by a team member<br>diving for a ball. What is the proper response<br>of the 1 <sup>st</sup> referee?   | <b>Ruling:</b><br>The 1 <sup>st</sup> referee should never accept the request of the team wiping a wet spot on the floor, because the request is the subject for a delay sanction. Therefore he must consider many facts. The "quick moppers" should mop the wet spot on the floor. Players may also use their own small towels to mop the floor. When the 1 <sup>st</sup> referee deems it necessary to mop the floor by the moppers, he may give the order. The control of the match is always by decision of the 1 <sup>st</sup> referee, if there is no Control Committee. In a match with a Control Committee, the Game Jury President may authorize the 2 <sup>nd</sup> referee to allow extra mopping if the wet patch is large and the temperature is above 25 degrees Celsius and the humidity is above 61%. If finally the team still refuses to play, the referee can sanction the team with either delay or default sanctions. <b>Rules 1.5, 5.1.2.2, 6.4.1, 16.2</b> |

The 1 <sup>st</sup> referee<br>issued a delay sanction, and the game was<br>continued. Was this an appropriate reaction<br>of the referee? | At first, a team is not allowed to leave the competition area without permission of the referees. Nevertheless, after two and a half minutes, the 2 <sup>nd</sup> referee should go to the team and remind them to immediately enter the court so as not to be declared in default. After they are back on the court, the 1 <sup>st</sup> referee should issue a delay sanction. <b>Rules 4.2, 6.4.1, 6.4.2, 18.1</b>   |

Is this the correct decision by the 1 <sup>st</sup><br>referee? | <b>Ruling:</b><br>The decision of the 1 <sup>st</sup> referee was correct in this instance because it was spectacular and caused great interest and enthusiasm among the crowd. However, in other situations the 1 <sup>st</sup> referee should consider repeating the rally. |

### CHAPTER 5: LIBERO

| <b>5.1</b><br>At the beginning of a match the coach submitted his starting line-up. Before the 2 <sup>nd</sup> referee could check it, the Libero replaced a back row player. What is the response of the 2 <sup>nd</sup> referee during the line-up check before the start of the match?   | <b>Ruling:</b><br>The starting player must be on the court at the time of the line-up check. The back row player must quickly replace the Libero with no warning or penalty. As soon as the 2 <sup>nd</sup> referee checked the line-up, the Libero may replace the back row player. If this will happen again in the match or if the delay will be too long, and the 1 <sup>st</sup> referee judges this action as a delay, the referee will issue a delay sanction.<br><b>Rule 19.3.2.4, 19.3.2.8, 24.3.1</b> |
|---|---|
| <b>5.2</b><br>A team had seven players including the Libero. In the second set, the starting player #6 was sanctioned by disqualification. The 1 <sup>st</sup> referee declared the team incomplete and the match won by the opponents. Is the decision of the 1 <sup>st</sup> referee correct?   | <b>Ruling:</b><br>The 1 <sup>st</sup> referee's decision is correct. The<br>Libero cannot participate in any substitution<br>and the disqualified player must be<br>substituted by a legal substitution, but there<br>are no players available for regular<br>substitutions.<br><b>Rules 6.4.3, 19</b>  |
| <b>5.3</b><br>Team 'B' had only eight players including the Libero. In the second set of the match, player #2 for 'B' has been substituted and later returned to the match. Player #2 is then sanctioned by disqualification. The Libero is on the bench at the time of the disqualification. What is the proper decision of the 1 <sup>st</sup> referee? | Ruling:<br>Since player #2 cannot be immediately<br>substituted legally, his team has to be<br>declared incomplete and will lose the 2 <sup>nd</sup> set.<br>Rules 6.4.3, 15.7, 15.8  |

| <b>5.4</b><br>A team had seven players including the Libero. In the second set, the starting player #7 was injured. The 1 <sup>st</sup> referee allowed the Libero to enter the match by a regular substitution procedure in place of the injured player and finished the match with this line-up. Is this correct decision of the 1 <sup>st</sup> referee?  | <b>Ruling:</b><br>The decision of the referee is not correct.<br>The Libero is not allowed to participate in any<br>substitution, regular or exceptional. There<br>are two possibilities for the team. If #7 is in<br>the front zone at the moment of the injury,<br>the team has the right to request three<br>minutes for recovery. If the player cannot<br>continue to play, the team loses the set or<br>possibly the match. However, if the injured<br>player #7 is in the back zone and the Libero<br>is on the bench, the team may replace #7 by<br>the Libero until the Libero must rotate to the<br>front zone. At this time, player #7 must either<br>return to play or the team is incomplete.<br><b>Rules 15.5, 15.7, 15.8, 17</b> |
|--|--|
| 5.5<br>The Libero was on the court for player #5<br>and was expelled from the set. What is the<br>correct process to continue the match?   | Ruling:<br>In case of an expelled or disqualified Libero<br>and if the team has two Liberos, the coach<br>may replace the sanctioned active Libero<br>immediately by the second Libero.<br>If the team has only one Libero, Player #5<br>must return to the court in place of the<br>Libero. In this case, the team has no right to<br>use this Libero for the remainder of the set.<br>The Libero is allowed to play during the next<br>set.<br>If the sanction had been disqualification, the<br>team would have no right to use this Libero<br>for the remainder of the match.<br>Rules 6.4.3, 19.1.1, 19.3.2, 19.3.2.8, 19.4   |
| <b>5.6</b><br>The Libero of a team was in position 5. The team won the rally and rotated. The Libero was replaced correctly by the starting player #2 who moved into the front zone. Before the game continued, the coach decided to substitute #2 by player #7. Both of these actions occurred in one interruption. Is the 1 <sup>st</sup> referee's decision correct to allow both player exchanges? | Ruling:<br>The process is correct. But the terminology is<br>important to avoid unnecessary protests.<br>The Libero is "replaced" by the starting<br>player #2. #7 then, "substitutes" #2.<br>So there is only one substitution between the<br>two rallies which is recorded on the score<br>sheet, and no rule infringement occurs.<br>Rules 15.3.2, 19.3.2, 19.3.2.8   |

| <b>5.7</b><br>The Libero replacing the player in position 1 was late. The replacement took place after the referee's whistle for service but before   | <b>Ruling:</b><br>The 1 <sup>st</sup> referee should allow the rally to continue uninterrupted. After the rally, he should advise the game captain that this is  |

| the service hit. What is the proper response<br>by the 1 <sup>st</sup> referee?   | not a correct procedure. Subsequent late<br>replacements should be sanctioned by delay<br>sanctions immediately, interrupting the rally.<br>However, if the replacement has been made<br>after the service hit, the 1 <sup>st</sup> referee should<br>whistle this as a positional fault.<br><b>Rule 19.3.2.5</b>                            |
| <b>5.8</b> A service specialist substituted into the game for the middle blocker. After she had served, she was replaced by the Libero. When the Libero rotated into the front row, she was replaced by the middle blocker. At this moment, the coach recognized that the middle blocker had entered the game illegally, and pushed the buzzer for a normal substitution of the service specialist by the middle blocker - thus attempting to have the middle blocker back on the court so that this substitution could take place legally. Since the 1 <sup>st</sup> referee was prepared to authorize the team to serve, the 2 <sup>nd</sup> referee refused the improper request by the team. On the other hand, the1 <sup>st</sup> referee recognized that he was going to authorize a service in which the team had an illegal player on the court, and so authorized the appropriate substitution and sanctioned the team with a delay warning, with very little disruption of the game. Was this the proper response by the 1 <sup>st</sup> referee? | Ruling:<br>Clearly, the 1 <sup>st</sup> referee was a master of the<br>"art of refereeing".<br>In the spirit of allowing the players to play the<br>game, with little interference from the<br>officials, the 1 <sup>st</sup> referee made the correct<br>decision.<br>If such errors continued by the team,<br>sanctions should be applied. |

|---|---|
| <b>5.9</b><br>When the middle blocker of team 'B' rotated to serve, his coach substituted him by a service specialist. After losing the service, the service specialist was replaced by the Libero. When the Libero had to rotate to the front row, the middle blocker raced onto the court to replace him. After two rallies, team 'A' realized that the replacement was not legal because the middle blocker had not been substituted back for the service specialist. Team 'A' protested the situation. A Judges Conference was convened after which team 'B' was allowed to substitute the middle blocker into the match for the service specialist with no penalty. Was this the correct ruling? | <b>Ruling:</b><br>There are three parts in the ruling: At first, since this situation was not clearly provided for in the rules, Rule 23.2.3 states that the 1 <sup>st</sup> referee has the power to decide any matter involving the game, including those not provided for in the rules.<br>Secondly, given that situation, team B should have been penalized with a point and service to the opponents for an illegal substitution, and the loss of additional points should be confirmed with any evidence including the Libero control sheet (R6). If the points gained during the illegal situation were able to be identified, they should be deducted from the points of the team B. If not, no additional points should be deducted. To get the middle blocker legally back into the match, team 'B' should have requested a regular substitution for the service specialist.<br>Thirdly, the proper replacement/substitution process for this situation is the following: At the time when the Libero was about to rotate to the front row, he should have been replaced by the service specialist.<br>These replacements/substitutions must be made in the same interruption of the game.<br><b>Rules 19.3.2.1, 23.2.3</b> |

| <b>5.10</b><br>During a match the referee whistled for service. At that moment, the serving player realized that the Libero had left the court but had not been replaced, so that his team had only five players on the court. He delayed the service as long as possible, but at last he served. At the moment of the service hit, the replacement player was on the court in position 1, but his legal position was in position 4. He clearly committed a positional fault. The teams played the rally which was won by the serving team. The game captain of the opponent team then approached the 1 <sup>st</sup> referee, requesting an explanation of the decision to play the rally. He expected his team to win the rally because the serving team committed a positional fault. The 1 <sup>st</sup> referee rejected the plea and allowed the rally to remain as played. What should have been the decision of the 1 <sup>st</sup> referee? | <b>Ruling:</b><br>There were three errors in this situation.<br>Firstly the 1 <sup>st</sup> referee must not blow the<br>whistle for the service unless the team is<br>ready to play and the server is in possession<br>of the ball.<br>He should have delayed the whistle for the<br>service. If this caused a delay, the serving<br>team should have received a delay sanction.<br>The second is that a replacement can only<br>take place before the whistle for service. And<br>the third is that the serving team committed a<br>positional fault at the moment of the service<br>hit, so they should have lost the rally. Had<br>the replacement player been in position 4<br>before the service hit, the rally should have<br>been played and the serving team should<br>have been sanctioned according to <b>Rule</b><br><b>19.3.2.5.</b><br><b>Rules 7.5.1, 12.3, 19.3.2.3, 19.3.2.5</b> |

| <b>5.11</b><br>During a match the Libero was on the court<br>replacing player #4. While running after a<br>ball, the Libero injured his leg muscle and<br>could not continue to play. The coach then<br>decided that he wanted player #4 to become<br>the re-designated Libero. Is this possible?  | Ruling:<br>In the case of an injured/ill Libero, declared<br>"permanently" unable to play, and if the team<br>has two Liberos, the coach may replace the<br>injured active Libero immediately by the<br>second Libero.<br>If, having been reduced to a single Libero,<br>the second Libero is also injured while on<br>court, or even just playing badly, the coach<br>may re-designate a new Libero from one of<br>the players not on the court (replacement<br>player excepted) at the moment of the<br>request for re-designation.<br>If the team has only one Libero, the choice is<br>the same, as in the case of the injured<br>second Libero. If the coach wants player #4<br>to be the new Libero, #4 at first has to be<br>substituted legally. Then he can be re-<br>designated as new Libero.<br>Rules 19.1.3., 19.3.2.2, 19.3.2.8, 19.4.2   |

| <b>5.12</b><br>In a match the coach was also the Libero.<br>When the coach was not on the court, he<br>walked in the zone between the extended<br>attack line and the warm-up area giving<br>instructions to his team. The referee did not<br>prevent this activity. Was this a correct ruling<br>by the referee?   | <b>Ruling:</b><br>The decision of the referee was correct. The rules state that the Libero cannot be the team or game captain. The rules do not prohibit the Libero from being the coach. Therefore, the Libero-coach was allowed this dual function and the referee did not insist on the Libero remaining on the bench. <b>Rule 5.2.3.4</b>  |
|---|--|
| <b>5.13</b><br>A middle blocker was sitting on the bench having been replaced by the Libero. When the Libero rotated from position 6 to position 5, the middle blocker, absentmindedly, came onto the court and the Libero, apparently thinking the same way or prompted by the actions of his colleague, started to come off the court and actually left the court briefly. Almost immediately, the Libero recognized that he had made a mistake and quickly exchanged positions again with the middle blocker. The 1 <sup>st</sup> referee ignored the mistaken replacement and whistled for the service. Was this the correct decision by the 1 <sup>st</sup> referee? | Ruling:<br>Rule 19.3.2.1 states that there must be one<br>rally between two Libero replacements.<br>However, due to the momentary nature of<br>the exchange, the referee considered it not<br>to be a completed replacement. Where such<br>an event takes place, obviously by a mistake,<br>and with no delay to the game, it is allowed<br>to continue without additional interruption.<br>This is part of the art of refereeing.<br>If on the other hand the Libero had left the<br>court and immediately replaced a different<br>regular player without a rally between the<br>replacements, the team would have been<br>penalized with a point and service to the<br>opponent, and the incorrect replacement<br>would have been corrected.<br>Rules 19.3.2.1, 19.3.2.2 |

The 2 <sup>nd</sup> referee did not recognize it. The 1 <sup>st</sup> referee, however, saw it, yet still authorised the service and after the service hit, he whistled for a positional fault of the receiving team 'A'. Was the decision of the 1 <sup>st</sup> referee correct? | <b>Ruling:</b><br>The decision of the 1 <sup>st</sup> referee was correct.<br>No fault has been made until the service hit.<br>In general, the task to whistle the positional<br>fault of the receiving team is included in the<br>2 <sup>nd</sup> referee's responsibilities. But in this case,<br>since the Libero has no right to be on the<br>court during this rally (and the rally begins at<br>the service hit) - and since the 2 <sup>nd</sup> referee did<br>not recognize this Libero replacement fault,<br>the 1 <sup>st</sup> referee cannot knowingly allow an<br>illegal act, and must help the 2 <sup>nd</sup> referee by<br>whistling. | <b>5.18</b><br>The Libero of a team became injured during the match, and the 2 <sup>nd</sup> referee authorized the medical doctor, with the coach in attendance, to be on the court for checking the seriousness of the injury. They decided to take the Libero out of the court and send the replaced player back on the court. After he was led off the court, the Libero claimed he had recovered and insisted on returning to the court to play. The referees allowed the Libero to go back on the court and to resume the match. Was this correct? | Ruling:<br>No, it should not have been allowed. Even<br>though it was the case of injury, the Libero<br>could be replaced through a regular<br>replacement. Also, the Libero still has the<br>right to participate in the match until he/she is<br>declared unable to continue (Rule 19.4.2).<br>Thus, this situation was a mistake because<br>two consecutive replacements took place<br>without any rally in between.<br>Rules 19.3.2.1, 19.3.2.8   |

However, in this instance<br>the injury occurred later in the match, the<br>player was able to walk and did not provide<br>an obstruction or danger to the teams.<br>This last point is crucial to the ruling. Then, team 'A' had to rotate.<br>Realising that this would force the team to<br>replace the Libero within the same<br>interruption, the referees permitted the<br>replacement. Pulling<br>down the net is a normal emotional reaction<br>of a disappointed player and can be<br>controlled by the art of the refereeing. In<br>some cases, intentional pulling down of the<br>net may be considered as a rude conduct<br>and sanctioned accordingly. Is this an appropriate response by the 1 <sup>st</sup><br>referee? | <b>Ruling:</b><br>The 1 <sup>st</sup> referee's response appears to be correct. He attempted to settle the problem by a warning and by directing the player to go back onto the court to play. When this did not succeed, the 1 <sup>st</sup> referee was empowered to sanction the player according to <b>Rule 21.3.</b> In this rule, the referee is given the authority to sanction the player according to the seriousness of the offence. For rude conduct he would receive a penalty and this would result in a point and service to the opponents. For conduct of a more serious nature, the player would receive an expulsion for offensive conduct. For aggressive conduct the player must be disqualified from the match. It should be noted that the rude conduct costs the offending team a point and service to the opponent team, whereas the offensive conduct and aggression do not carry a point/service penalty. <b>Rules 21.1, 21.2, 21.3</b> |

| <b>6.7</b><br>A player was expelled directly from the court.<br>The team had received neither a warning nor<br>a penalty at this stage of the match.<br>What should be the 1 <sup>st</sup> referee's response to<br>a subsequent minor misconduct from any<br>other member of the same team? | Ruling:<br>The 1 <sup>st</sup> referee should normally try to prevent<br>a team from reaching the sanctioning level.<br>However, should a clear case of offensive<br>conduct be committed in the first instance,<br>the referee must expel the player without a<br>previous sanction.<br>Misconduct sanctions are strictly individual<br>sanctions, and shall not take into account<br>previous sanctions given to other team<br>members of the same team. ## CHAPTER 7: THE REFEREES AND THEIR RESPONSIBILITIES

| <b>7.1</b><br>A coach was detected talking to and distracting the scorer during the play. The 2 <sup>nd</sup> referee told the coach not to interfere with the scorer. Is this a correct action by the 2 <sup>nd</sup> referee?  | <b>Ruling:</b><br>Although only the 1 <sup>st</sup> referee may officially<br>warn or penalize a coach, player or another<br>team member, if the 2 <sup>nd</sup> referee feels that the<br>situation needs a warning, he must notify the<br>1 <sup>st</sup> referee who must act. <b>Rule 23.3.2.2</b><br>However, in the spirit of the art of refereeing,<br>if such situations can be resolved by the 2 <sup>nd</sup><br>referee with a word, it would be to the<br>advantage of the game not to stop it for the<br>issue of sanctions. |

| <b>7.2</b><br>The 2 <sup>nd</sup> referee indicated to the 1 <sup>st</sup> referee that a reserve player was sitting on the floor in the warm-up area instead of standing or stretching. The 1 <sup>st</sup> referee warned the team for a minor misconduct and made the player stand up. Is this a correct action by the 1 <sup>st</sup> referee? | <b>Ruling:</b><br>This was an incorrect ruling by the 1 <sup>st</sup> referee. Players are not required to stand in the warm-up area. On the other hand, players may not sit on benches, chairs, rails or walls in the warm-up area. The warm-up area is designated to the players to be prepared to play.<br><b>Rules 4.2.1, 4.2.3, 24.2.4, 24.2.5</b>   |
| <b>7.3</b> A coach approached the scorer and asked for information about the number of time-outs that had been taken by the other team. What is the proper response of the scorer?   | Ruling:<br>The scorer should not respond to the coach.<br>Generally, coaches are not permitted to ask<br>the scorers for any information.<br>However, where an electronic scoreboard is<br>used, but the number of used game<br>interruptions is not indicated, the coaches<br>have the right to ask the scorer for this<br>information, but only about their own team<br>and at a time which is neither distracting to<br>the scorer nor delaying the match.<br>Rule 25.2.2  |

| <b>7.5</b><br>A match was tied at 23-23 in the 3 <sup>rd</sup> set. The 2 <sup>nd</sup> referee called 'A' for "positional fault". 'A' protested the judgment, but to no avail. On the next service, with the score 24-23 to 'B', the 2 <sup>nd</sup> referee again called 'A' for "positional fault" and declared the set to 'B'. Again the game captain of 'A' protested to both referees. After some discussion, the 1 <sup>st</sup> referee agreed that both judgments had been incorrect.<br>However, the 1 <sup>st</sup> referee stated that the set was over and that no correction could be made. Despite further protests, the referee continued the match with set four.<br>The team captain of 'A' recorded the protest formally at the end of the match. Was this a proper action by the 1 <sup>st</sup> referee? | <b>Ruling:</b><br>The decision of the 1 <sup>st</sup> referee was wrong.<br>Referees are allowed to correct their<br>decisions concerning the application of the<br>rules. The 1 <sup>st</sup> referee should correct the<br>obvious mistake by restarting the match in<br>the third set at 23-23.<br>In FIVB World Competitions, the Control<br>Committee would correct this obvious<br>mistake.  |

| <b>7.6</b><br>A coach pushed the buzzer and signalled for<br>a time-out. The 2 <sup>nd</sup> referee instinctively blew<br>his whistle but then recognized that this team<br>had already used its two time-outs in the set.<br>He then "waved" for the teams to remain on<br>the court and did not sanction the team with<br>an "improper request" because the delay<br>was slight.<br>At that moment, the coach then signalled<br>with her hands that she desired to make a<br>substitution. The 2 <sup>nd</sup> referee then rejected the<br>request as "improper" and the game<br>continued. Was he correct in his handling of<br>the situation?   | <b>Ruling:</b><br>The 2 <sup>nd</sup> referee's decision was not correct.<br>He is in charge of the authorization of<br>interruptions and controls their number.<br>When the 2 <sup>nd</sup> referee blew the whistle at the<br>coach's hand signal, he should have known<br>that the team had no more time-outs and<br>should simply have rejected the request<br>without whistling.<br>Since there was only a momentary delay, the<br>2 <sup>nd</sup> referee probably showed good judgment<br>in hastening the game to continue with no<br>other consequences.<br>On the other hand, the substitution request<br>was only one request made in the<br>interruption; the request for substitution<br>should have been allowed as legal.<br><b>Rules 15.1, 15.2.1, 15.11, 16.1, 16.2, 24.2.6,<br/>24.2.7</b> |

FIVB CASEBOOK-2012 Edition

| <b>7.7</b> At the start of a set, the coach of 'A' submitted his line-up. The 1 <sup>st</sup> referee signalled for the teams to enter the court. At the signal, the players of 'A' took their positions on the court while the players of 'B' were still gathered around their coach at the bench. The 1 <sup>st</sup> referee again signalled for them to take the court. The coach of 'B' apparently observed the players of 'A' in their positions on the court, and then submitted his line-up to the 2 <sup>nd</sup> referee. The 1 <sup>st</sup> referee sanctioned team 'B' with a "delay warning". The coach of 'A' protested to the Control Committee that team 'B' should be sanctioned for "rude conduct" and team 'A' should be awarded a point. What should the correct ruling have been in this case? | <b>Ruling:</b><br>The 1 <sup>st</sup> referee made the initial error by directing team 'A' to take the court before the coach of 'B' had submitted his line-up sheet to the 2 <sup>nd</sup> referee.<br>Once team 'A' was on the court, the delay warning given by the 1 <sup>st</sup> referee was probably correct. If on the other hand it was clear that the coach of 'B' was taking advantage of the situation, the Control Committee should have ruled the rude conduct against the coach of 'B' and awarded team 'A' a point and service. |

| <b>7.8</b><br>During a time-out a coach met with his entire<br>team in the very back corner of the free zone<br>near the warm-up zone. The referees did<br>nothing to prevent this. Is this correct?   | Ruling:<br>Rule 15.4.2 states that the team must "go to<br>the free zone near their bench" during a time-<br>out. Therefore the 2 <sup>nd</sup> referee should tell the<br>team to go near to their bench.<br>Rule 15.4.2   |

Is this the correct process of the<br>referees?   | <b>Ruling:</b><br>The process was not correct. The only team member allowed to speak with the referees is the game captain. Thus, the coach is not authorized to speak to the 2 <sup>nd</sup> referee. The 1 <sup>st</sup> referee should have called the game captain and asked her to remind the coach of the fact that he has no right to ask the referees. <b>Rule 5.1.2</b>  |

## **CHAPTER 8: SPECIAL CASES**

| <u>8.1</u>  | PRINCIPLE:   |
|---|--|
| During a match team 'A' played very hard<br>and fast. Team 'B' intentionally slowed down<br>the tempo of the game of the very emotional<br>team 'A'. How should the referee respond?  | "Tempo" is a very delicate element in<br>volleyball. Every team has its optimum<br>playing tempo. Tempo is not in the rules, but<br>its control is one of the key factors in the<br>performance of a good referee. A suitable<br>tempo will allow a match to be played at a<br>high level. On the other hand, the referee<br>should keep the game at a constant tempo<br>within the normal flow of the game. The<br>referee should never allow any external<br>influences to retard the flow of a good match<br>and ruin the good performance of one of the<br>teams. This is another "art" of refereeing.   |
| <b>8.2</b><br>In a match a floor wiping towel from one of the players of 'B' fell from her uniform and landed on the floor between the blockers of 'A'. The play continued with team 'A' winning the rally. What is the correct ruling in this case?  | <b>Ruling:</b><br>This is a judgment of the 1 <sup>st</sup> referee to decide<br>the degree of influence which the towel had<br>on the play. Since the towel fell between<br>active blockers of the opponents, the towel<br>had the potential to influence the outcome of<br>the rally and perhaps to cause an injury. If,<br>according to the judgment of the 1 <sup>st</sup> referee,<br>the situation is dangerous, he should stop<br>the game immediately and direct a replay. If,<br>on the other hand, the rally is finished and<br>the falling towel will have no influence on its<br>outcome, there is no need to direct a replay.<br>If this had been intentional or a repeated<br>occurrence, other sanctions would apply.<br><b>Rule 17.2</b> |
| <b>8.3</b><br>During the third set of a match the gymnasium lights went out. During that set, a starting player from one of the teams had been disqualified from the match.
